DETAILED ACTION

Applicants' after-final response filed 12/02/2008 has been entered. All pending claims have been carefully reconsidered in view of the response.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- 1) Insert the following paragraph under the TITLE (page 2) of the specification:

Related Application

This application claims priority to United States Provisional Application serial number 60/461,705 (entitled Low-Power-Consumption Short-Length and High-Modulation-Depth Silicon Electro-Optic Modulator, filed April 9, 2003) which is incorporated herein by reference.

- 2) Delete paragraph [0002].

The amendment to the specification is deemed necessary, so that the reference to the priority application appears in the first paragraph of the specification, in accordance with MPEP.

Allowable Subject Matter

Claims 25-49 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicants' arguments for patentability of pending claims are deemed convincing. Particularly, applicants arguments presented in page 7, third full paragraph through page 8, first paragraph are convincing and the application is allowed. Regarding "means plus function" claim 36, the claim is allowable for reasons discussed in page 8, first full paragraph of the response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
